

Try hack me:- Cicada3301 Room

Task 1

It's nothing but u have to download stuffs for the next tasks

Task 2

U downloaded a zip file extract it u'll get a audio file

Download sound visualizer

Upload that file

Go to spectrogram

And then u'll get a qr code just scan it and get the website link and this task is done

Task3

On that site from task 2 u'll get paraphrase and key

Decode it by base 64

And with that hint french diplomat cipher

U'll get to know it is nothing but vigenere cipher

In that too there is Variant Beaufort cipher mode of vigenere

Just go to any website for variant beaufort decode

Put the decoded key and the decode paraphrase

U'll get a decode paraphrase once again

That's it

Task4

For this task download steghide first

In cmd run this command

```
steghide extract -sf welcome.jpg -p "Ju5T_4_P455phr453!"
```

This means in plain text that

steghide, extract the hidden data from welcome . jpg using the password

Ju5T_4_P455phr453!

The password we got from task 3

The link is the ans for the task

Task5

The answer is outguess

Task6

Download the image from the task4's ans link

Download outguess

Extract the hidden details from the that image using outguess

U'll get a sha512 hash

And a book code

md5hashing.net, select SHA512 as the hash type

Crack the sha512 hash u'll get a link

Enter to that link

It contains a long text, this is your "book" for the book cipher.
After decoding u'll get another link and u cmpltd the task 6

Task7

Go to the last link

And u'll get a song named **"The Instar Emergence"**
